Concepts

- **Snippet:** a note for a certain topic in a lecture
- **Stash:** a student's personalized snippet list for a lecture
- **Feed:** a consolidation of all attendees' feeds
- **Save:** allow a student to save a snippet to his/her personal feed
- **Flag:** a mark indicating that a user thinks a snippet is incorrect
- **Unlocking:** snippets are hidden until user contributes enough

Risks and Mitigations

Too many notes	Rating systems
Lazy students skip class	Must contribute to view
Low user count	Good for individual note managing too
Students sabotaging notes	Moderation (flagging)

thanks!
